## OUR CONTRIBUTION TO THE RECRUITMENT INDUSTRY

- EXECUTIVE LEVEL LIASING -

Captive Placements Personnel offers a service aimed at attracting Professional staff and individuals at Executive level to your organization in the most effective and discrete manner possible. The approach and method required for this requires a different recruitment approach which could include "Headhunting", a function best conducted by a person with the relevant experience and seniority. For this purpose any request by a Client for the recruitment of Professional and Executive level candidates will be undertaken by one of our Directors. Please contact the Director Charmaine Pyper.

As a Professional or Executive level person seeking a new challenge, given the high degree of sensitivity and confidentiality associated with your position in an organization, your association with Captive Placements Personnel will be the direct responsibility of one of our Directors.
